CORK COLLARS AND SADDLES,
FIGHE AMERICAN CORK COMPANY offer for sale, ground or grated Cork for stuffing horse Collars and Saddles, It has been used during the past season by several Saddle and Harness makers, and it is a non-conductor of heat, has cured several horses whose breasts had become sore and inflamed by warring the breasts had become sore and inflamed by wearing the

ordinary collars.

It has been proved beyond a doubt, to surpass every other substance that has yet been known or used for that purpose. The fact that it will not become matted, and is a non-conductor of heat, must convince every person of its value. But one farther advantage is, these Collars fit the breast of a horse immediately on their application, which is not the case with any other material. A certificate as to the nilities of the critical control of the case of the control of the case A certificate as to the utility of the article,

Boston, Sept. 3d, 1833. We the subscribers, having made or used the Cork
Herse Collars, made from ground or grated Cork, are fully satisfied that they surpass collars made of hair, wool, or any other substance whatever that we have been acquainted with, for the following reasons: first, the elasticity is sufficient; secondly, it being a non-conductor of heat, does not heat the breast as all other substances do; thirdly, it fits itself to any horse's breast immediately on its application; and fourthly, it has cored every horse's breast we have applied it to, or

NDIGESTION. JAUNDICE AND BIL-10US COMPLAINTS. ANDERSON'S VEGETABLE ELIXIB, for Dyspepsia or Indigestion, Jaundice and Bilious Complaints: weakness of the Stomach and Bowels, and consequent loss of appetite; nervous com-plaints, headach, sour stomach, flatulence and habitua costineness.

commercation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from Indigestion for three years. 'During this time I suffered very much from mental depression, constant pain in the head and breast, and side, sharp shooting pains over almost the whole system—the food that I ate seemed to pass into my lungs and there remain, giving me great pain at tended with a strong degree of heat. At times I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. In the course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of any thing like indigestion or pressure on the stomach, to take about a tablespoonful of it, which, in the course of a few hours, completely restores me. It has had with me a very wonderfuleffect in strengthening the stomach and invigorating the stomach and invigorat whole system, and judging by my own case I consider it in all diseases connected with the digestive organs to be a very valuable medicine

It is put up in large bottles containing a pound and a different form.

POSITIVE, OR NO PAY.

MRS. HILL'S COUGH DROPS, OR VEGETABLE

HEALTH RESTRATIVE.

Prepared entirely from Vegetables.

FORE than forty years have now elapsed, since the receipt was given me by my uncle, a celebrated Physician, at a time that I was troubled with a very bad Cough and Cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerimmediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops on different people, has induced me to put them up in Phials, with directions under the impression it would be a public benefit. And as that is my sole aim—and to convince the public that is all, and as a sure guarantee against quackery and deception, I authorise my agents to return the money to all those that do not get relief by their returning the bottle and directions. The relief and absolute cure, particularly of those numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged appro-bation of those who are now restored to pefect health, as well as many in the decline of life who frankly acknowledge having received great relief whofrankly acknowledge having received great relief from the use of them in the following diseases, viz:—Coughs, Colds, Asthma, Spitting of Blood, Hooping Cough, Difficulty of Breathing, Influenza, Quinsea, Phthisic, Croup, and all disorders arising from colds. Price 374 cents per bottle.

BDAINT OIL—The subscripers keep on handa a constant supply of their "prepared Paint Oil," which they offer for sale (with some further improvements, adapting it for use in cold weather as well as warm) with renewen assurance of its merit, having stood through the last summer and winter without change and almost without diminution of gloss. This Oil, independent of being 25 percent. cheaper, will actually cover a quarter more surface than Linseed Oil, as has been repeatedly proved, and cofirmed by statements of many paleters. Upwards of fifty buildings in this city and vicinity can be referred to, painted lats year with this Oil, and most of them (were painted with two coats) still retain their gloss, which is a clear demonstration of its strength. The prepared Oil, is found to answer a good purpose to mix with Linseed Oil, giving it strength, and durability with a more permanent gloss. It is found also to paint a very clear white; being light colored, it does not give any coloring or yellow tinge to the lead in mixing.—Oil factory head of Foster's wharf. DOWNER & AUSTIN.

The above Oil, and all other Oils, sold from the Oil factory, which do not prove as represented, can be returned and the cartage will be paid.

Net and the provents are proved and the cartage will be paid.

ALL GOODS .- Broadcloths, Habit Cloths, Cassimeres, Vestings, Petershams, Pilot Cloths, &c.—SAMUEL CASS, No 61 Washington street, (second door north of Court street,) has just received large assortment of new Woollen Goods, among which are extra, some, medium, and large assortment of new Woollen Goods, among which are extra, soper, medium and low priced London, French, German and American Cloths, of the most fashionable shades of blacks, blues, browns, Russell, a rench and London browns, clives, olive browns, clarets, Adelaides, mulberry, invisible, ravens and bottle reens, Oxford black and French gray mixtures.

Extra, Medium and Low Priced Cassimeres, of french, English and American manufacture, of latest and richest styles—colors: blacks, blues, slates, lavencers, olives, greens, sage, drabs, blacks, French, Oxford and army mixtures, American stripes, with a variety of London and Bedford corded and ribbed cassimeres.

Habit Cloths.—German, French and English Habit

London and Bedford corded and ribbed cassimeres.

COMPOUND CHLORINE TOOTH WASH and Cleansing the Mouth.

THE CHLORINE TOOTH WASH effectually

cleanses the Teeth, and will answer the purposes of the best dentrifice. It contains no acid or any ingredient which can in any case be injurious. te found to keep the brushitself free from all impuri-

The Compound Chlorine Tooth Wash has the fur ther advantage of Cleansing the mouth also—and of removing whatever is offensive in the breath. It hardens the gums and is a valuable remedy for canker or soreness of the mouth. It may also be used with the greatest advantage as a gargle for sore throat. In fine the preserves the teeth and mouth in all respects in a clean and healthy condition. It is agreeable to the taste. Gentlemen who are in the habit of using to-

taste. Gentlemen who are in the habit of using tobacco, will find that the tooth wash will speedily remove all the effects of it from the mouth.

That the public may rest assured of the very salutary effects of this composition, the following recommendations from gentlemen of the highest respectability are submitted

From J. W. Webster, M. D. Erving Professor of
Chemistry in Harvard University.

Harvard University, Cambridge, March 14, 1831.

Messrs. Lowe & Reed. Gentlemen—I have examned the Compound Chlorine Tooth Wash received
from you, and have no hesitation in stating my belief
that it will answer the purpose for which you have
compounded it. I have discovered in it no ingredient
which can prove injurious to the teeth.

which can prove injurious to the teeth.

Yours, &c. J. W. WEBSTER.

From Sylvanus Plympton, M. D.

Messrs Love & Reed. Gentlemen—I have frequently administered your Compound Chlorine Tooth Wash
in various affections of the mouth and throat—and re
lief law heen jumpediate and permanent. In a neural

ly administered your Compound Chlorine Tooth Wash in various affections of the mouth and throat—and re lief has been immediate and permanent. In a neural gic affection of the face and head, arising from a depraved state of the gums and defective teeth, which resisted many powerful, approved medicines, this Wash acted like a charm. I hesitate not to give it my entire approbation for the purposes for which it was made, and consider it one of the most safe, pleasant, and effectual articles of the kind ever offered to the public. I am yours, &c., S. PLYMPTON

Cambridge, Dec. 9, 1831.

From Mr. A. A. Hayes, Operative Chemist and Super intendent of the Roy arry Chemical Works.

Messrs Lowe & R. d. Gentlemen—Having exam ined the bottle of Compound Chlorine Tooth Wash you gave me, and become acquainted with its composition, it affords me pleasure to express my belief, that it well deserves the high reputation it has acquired.—It does not contain any substance in solution or suspension, which can either chemically or mechanically injure the teeth, and observation and experience confirm the opinion that its effects on the mouth, are salutary and very agreeable.

With respect, A. A. HAYES. tary and very agreeable.
With respect, A. A. HAYES,

The company are desirous at this time to introduce to the notice of the American people the

the notice of the American people the

CORK MATTRESS.

Or, SEAMEN'S FLOATING BED.

The Cork when manufactured into a mattress or bed, is soft and easy to sleep upon, and has a kind of elasticity about it that is entirely different from any other article that has ever been used for a bed, and will not become matted like hair or moss. Cork is a non conductor of heat or preventive against contagion, and is beyond a doubt more conducive to health than any other substance that has been heretofore used to sleep upon. But as regards the healthiness of the article, it is unnecessary for us to say any thing, as the letters published below, from some of the most eminent medical gentlemen in the country, will satisfy the most fasticious on that subject. We now come to what we deem the most valuable property attached to the Cork Mattress or Bed, viz:—its life preserving qualities. A mattress or bed of the usual dimensions made from ground or grated cork, will sustain a person in case of shiptress or bed of the usual dimensions made from ground or grated cork, will sustain a person in case of shipwreck or steamboat accident, on the most boisterous seas, and it has been proved that one pound and sevan ounces, only prepared in the same manner, will sustain a person in smooth water, of common size, from sinking without the least exertion. An exhibition of the life preserving properties of the Cork Mattress or Bed, was made in Boston harbor a few weeks since. A person floated from the Castleto Long wharf, the distance about three miles, tide in favor and wind against him seavery rough—he was enabled by the use of his hands to move forward with greater rapidity than a boat rowed by one man.

ed by one man.

The exhibition was witnessed by hundreds of persons, and proved entirely satisfactory, which will be perceived by the statement below, signed by a few persons, and if it was necessary hundreds might sons present, and if it were necessary hundreds might be added.

The company have now on hand, specimens o Cork Mattresses, varying in price from five to ten dollars, and are now ready to execute orders at short notice. The cork will be sold in bulk to such persons as choose

to manufacture for themselves.
All communications may be addressed to the American Cork Company, Boston.
HENRY KNAPP, Agent.

HENRY KNAPP, Agent.

3: Agents will soon be appointed in all the principal cities in the United States, of which due notice will be given.

Boston, October 14th, 1833.

Extract from a letter written by Doct. J. C. Warren, on the subject, dated March 2d, 1833:
"I find it a valuable invention, especially for vessels, and if it were generally used, it might be the means of saving life on many occasions. In regard to health, I believe it to be unobjectionable."

Signed.

J. C. WARREN

Extract of a letter, from Doct. Waterhouse, dated August 12th, 9833:

"I have examined and tried your Chair Cushions filled with grated cork, and am pleased with their neatness, and freedom from any thing like filth. Most people would, I believe, give the preference to those filled with rasped cork. I am pleased with their property of sustaining a person on the water, in case of shipwreck, fire or explosion, and particularly recompend them for cots in steamhouts, and will venture to be a state of the control of mend them for cots in steamboats, and will venture to predict their introduction."

Signed,

Extract of a letter from Capt. Preble, President of the Marine Society, Portland, Me.

"I am perfectly satisfied that it will answer the purpose of a comfortable bed, for seamen, and a life preserver in time of shipwreck."

ENOCH PREPLY.

Signed, ENOCH PREBLE.
Certificates of three gentlemen who witnessed the ex-Signed,
Certificates of three gentlemen who witnessed the exhibition in Boston harbor:
We, the undersigned, do hereby certify, that we were present at the experiment made by Mr Knapp, on Saturday the 10th inst., with a Mattress filled with grated cork, to sustain a person on the water, from the Castleto Long wharf, which proved successful to our utmost satisfaction. We are happy to state that we are perfectly satisfied as it respects its property in securing persons from shipwreck as intended. We do therefore recommend their use, particularly to mariners, and venture to say that their introduction on board of vessels, will prove highly important and valuable hereafter.

Signed,
JONATHAN A. BARRY.

Boston, August 15th. 1833.

WHILE from the botanical bosom of our moth er earth we draw nutriment to sustain health and life; so likewise from the same prolifick source we are furnished with healing antidotes for the whole cat-

THE THOMSONIAN INFIRMARY is pleasantly situated at No 23, Harvard street, between Front and Washington streets, where the pure vegetable medicine is both sold and administered according to the method prescribed by the father of the system, Doct. Samuel Thomson.

To the efficacy of this medicine on all accessions when

To the efficacy of this medicine on all occasions when properly applied, in removing with salutary effect, every species of desperate malady, though the same had been surrendered by the regular practitioner as irremediable, thousands who have experienced its safe, speedy and certain operations will testify. Mercury and its various modifications, arsenic or ratsbane, with other mineral poisons make no part of the specificks used; nor does bleeding, blistering, &c., which is always attended with more or less danger, constitute any portion of the practice of the proprietor. Those persons who have unhappily contracted a certain disease, and who believe that the same cannot be expelled from the system without the use of the foregoing mineral poison, whose deleterious effects subjects the sufferer to a pre mature grave, are assured that if they will make a timely application at the Harvard street Infirmary, they

may be restored to sound health, and that speedily, without the use of the aforesaid destructive drug.

The proprietor having been familiar with the medicine and manner of its application for more than twenty years past, and having during that long period himself witnessed its efficacious results in healing the most desperate diseases, respectfully invites the afflicted invalid to place himself under his care, and in so doing, he is confident of giving him satisfaction. Males and females can be accommodated with private

rooms if they wish them.

Each course of medicine at the usual price; and board for invalids on reasonable terms, and in all cases payment will be required in advance, unless satisfactory security be given.

A change of linen will be necessary after taking a

course of medicine. No alteration in the diet of patients is required. Family-rights medicine and books at the common
